Reflects the LEGAL OWNER of the domain. Misspellings and typos should be corrected.

Very critical information as this is who CONTROLS the domain – all notices, auto-messaging and confirmations will be sent here.

Ensure EMAIL address listed here is current and accessible at all times. **NEVER** use a domain email address here – it will NOT be available during moves or setup when many will need to communicate with you.

Simply reflects when your domain was first registered, when your registration expires and when the registrar's database was last updated.

It DOES NOT reflect when your domain record was last updated

**DNS INFO** - Indicates what (and whose) servers control access to your domain. When someone types "www.systemsavvy.com" THESE servers are sent the request and direct the request to systemsavvy.com. This is generally the primary and secondary **DOMAIN NAME SERVERS** for your web host or your domain registrar.

This info must change when you change web hosts to list the new host's name servers. **Your domain will NOT display at a new hosting account until a DNS change is processed.**

Two or more servers are listed in case the primary server is down or unavailable due to traffic.
